

AutoJanitor

Automated toilet and urinal cleaning and deodorizing system

- Automated surface care system
- Cleans and deodorizes toilets & urinals
- Powerful formulations

- Washroom solution
- Kitchen, canteen, restaurant solution
- Hospitals, healthcare solution

DESCRIPTION

The AutoJanitor is an automated surface care system that cleans and deodorizes toilets and urinals while providing a clean, fresh scent for the restroom.

Powerful formulas attack and eliminate odours at the source, automatically cleaning throughout the day and night ensuring that fixtures are hygienic, odour-free and presentable.

PRODUCT BENEFITS AND SPECIFICATIONS

24 Hour Cleaning

- 24 hour automatic toilet and urinal cleaning to remove stains, kill germs and prevent scale build-up.
- Cleans and deodorises toilets while releasing a fresh, pleasant scent automatically.
- Powerful cleaning products eliminate the source of bad odours.
- Cleaner & Deodoriser refill – cleans surfaces and introduces a high quality concentrated fragrance for washroom freshness.
- Bio-Flush refill – attacks uric scale build-up and prevents blockages in pipes, traps and drains, through an Enzyme based formula.
- Bio-Sense refill – ideal for washrooms operating with water-saving devices.

24 Hour Deodorizing

- Neutralizes malodours in the air and at the source through wick system.
- Consistent and fresh fragrance levels throughout refill cycle.
- 5 year dispenser guarantee

PROGRAMMABLE OPTIONS

- Three refill settings: 15, 30, or 60 days.
- Can service two fixtures with a second fixture tubing kit.
